This certificate has been rendered in accordance with Regulation (EC) 1935/2004 of the European Parliament and of the Council (of 27.10.2004) on materials and articles intended to come into contact with food. Tests were carried out under the EU 10/2011 Commission Regulation on Food Contact Plastics and Materials. It has been evaluated within the scope of Regulation (EC) No 2023/2006 on good manufacturing practice for materials and articles intended to come into contact with food, as well as in accordance with United States FDA Regulations (21 CFR Parts 170–178) covering indirect food additives, adhesives and coatings, olefin polymers, rubber articles intended for repeated use, and stabilizers/adjuvants. Test reports must be submitted by the customer together with this certificate. The above-mentioned tests have been performed by the manufacturer under normal operating conditions and the test report has been submitted. The test results apply only to the particular sample tested and to the specific tests carried out. This certificate applies specifically to the sample investigated in test reference number only. Other relevant EU Directives and US FDA provisions must also be observed.
